## The most up to date **THYROID Profile**

---

TSH   FT4   FT3   T4   T3

Thyreoglobulin • Anti TSH Receptors

Anti Tg • Anti TPO

---

Complete functional and  
immunological status assessment

## **Diametra offers a wide range of tests for evaluating thyroid function more accurate and reliable than it was possible just a few years ago.**

Ensuring healthy thyroid function is a valuable tool in preventive medicine.

Optimal thyroid function may help safeguard against the onset of diabetes, obesity, heart disease, and depression.

Thyroid hormones also play central metabolic roles in healthy sexual and reproductive function in both women and men.

Because they are essential for IGF-1 production, thyroid hormones significantly affect lipid metabolism.

These tests may reveal important clinical information about:

- ◆ **Central thyroid dysregulation**
- ◆ **Peripheral thyroid imbalances**
- ◆ **Thyroid antibody levels**

### **PRODUCT INFORMATION**

DKO013	TSH (Thyroid-stimulating hormone)
DKO037	Free T3 (Free Triiodothyronine)
DKO038	Free T4 (Free Thyroxine)
DKO044	Total T3 (Total Triiodothyronine)
DKO045	Total T4 (Total Thyroxine)
DKO048	Thyreoglobulin
DKO085	TSH receptor (Thyrotropin Receptor autoantibodies)
DKO115	Anti-TG (Autoantibodies against Thyreoglobulin)
DKO116	Anti TPO (Autoantibodies against Thyroid Peroxidase)
